CHAIR'S REPORT

I am pleased on behalf of the Board of Directors of the Transport Mutual Credit Union, to present our 50th Annual Report for the financial year ended 30th June 2014.

The year in review

The 2014 financial year has been a more normal business year for your Credit Union. Low interest rates have continued and have been reflected in the rates charged on loans and paid on deposits. These rates are comparable with our competitors and in many instances better than those offered by most, including the major banks. The low interest rate regime has continued to have an impact on margins and the Board and Management have, as a consequence, endeavoured to minimise costs wherever possible. The minimising of costs and a better balancing of interest rates between loans and term deposits has resulted in a much improved profit result this year.

The Credit Union increased in size by approximately one percent during the year which was a little below what had been budgeted and I believe that this can be attributed to the uncertainty faced by members employed by Roads and Maritime Services over the last twelve months. Similarly the total of Loans to Members has decreased at the end of this year compared to last year and this can be attributed to members continuing to make payments in excess of those required and a number of members paying out loans after receiving redundancy payments.

The Board and Management have maintained a focus on our traditional markets throughout the year but with some effort being made to enter into other areas following our name change last year. Penetration into these other areas is not significant at this time but efforts will continue in order to achieve further results in the future. It will be necessary to attain new markets to ensure that the Credit Union can continue to grow. However, you can be assured that the Board and Management will continue to take a conservative approach to moving into these new areas as we will with the business as a whole.

Highlights 2013 – 2014

The year saw a much improved profit result and I would like to touch on this and a few other major points:

- Profit before tax \$253,716 (2013 \$120,562), profit after tax \$189,915 (2013 \$93,519)
- The profit after tax represents a return of 0.33% on average assets (2013 0.16%)
- Loan Funding of \$12.5 million, compared with \$10.7 million in the previous year
- Membership being maintained even with the RMS restructure

I thank the staff and Management of your Credit Union for their dedication this year and for their continued effort in providing excellent service to you and all our Members throughout 2013 – 2014.

The Year Ahead

The year ahead should show a continuation of the improved business climate that the Credit Union has experienced during the latter part of the 2013 – 2014 financial year. We have budgeted for a better result for 2014 – 2015. However, the Reserve Bank has expressed some concern about the rapid rise in value of housing in Sydney and Melbourne and may take action through interest rates to dampen these markets. Any such action may impact on our forecasts. However, we will monitor this situation and take action where appropriate.

There is a requirement that all credit unions must have a Chief Risk Officer before 1 January 2015. The Credit Union has, previously managed risk through Management and the Audit and Risk Committee of the Board. However, we will need to comply with the new requirement and have put a proposal to APRA as to how to do so. You can be assured that we will comply by the due date.

TRANSPORT MUTUAL CREDIT UNION LIMITED

ABN 78 087 650 600

2014 Annual Financial Report

As I stated earlier, we have looked at areas outside of our traditional markets in the past twelve months and we will continue to exploit opportunities in these areas in the year ahead through our marketing and visits by our Business Development people. You can be assured that these initiatives will in no way diminish our service to our current Members.

On behalf of the Board of Directors, I commend this report to you. I thank the Directors for their ongoing commitment and thank you, the Members of the Credit Union for your loyalty and patronage.

We look forward to your continuing support.

DIRECTORS' BENEFITS

No Director has received or become entitled to receive during, or since the financial year, a benefit because of a contract made by the Credit Union, controlled entity, or a related body corporate with a Director, a firm of which a Director is a member or an entity in which a Director has a substantial financial interest, other than that disclosed in Note 27 of the financial report.

INDEMNIFYING OFFICER OR AUDITOR

Insurance premiums have been paid to insure each of the Directors and officers of the Credit Union, against any costs and expenses incurred by them in defending any legal proceeding arising out of their conduct while acting in their capacity as an officer of the Credit Union. In accordance with normal commercial practice disclosure of the premium amount and the nature of the insured liabilities is prohibited by a confidentiality clause in the contract.

No insurance cover has been provided for the benefit of the auditors of the Credit Union.

FINANCIAL PERFORMANCE DISCLOSURES

PRINCIPAL ACTIVITIES

The principal activities of the Credit Union during the year were the provision of retail financial services to Members in the form of taking deposits and giving financial accommodation as prescribed by the Constitution.

No significant changes in the nature of these activities occurred during the year.

OPERATING RESULTS

The net profit of the Credit Union for the year after providing for income tax and extraordinary items was \$189,915 (2013 - \$93,519).

DIVIDENDS

No dividends have been paid or declared since the end of the financial year and no dividends have been recommended or provided for by the Directors of the Credit Union.

REVIEW OF OPERATIONS

The results of the Credit Union's operations from its activities of providing financial services to its Members did not change significantly from those of the previous year.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

There were no significant changes in the state of the affairs of the Credit Union during the year.

EVENTS OCCURRING AFTER BALANCE DATE

No matters or circumstances have arisen since the end of the financial year which have significantly affected or may significantly affect the operations, or state of affairs of the Credit Union in subsequent financial years.

LIKELY DEVELOPMENTS AND RESULTS

No matter, circumstance or likely development in the operations has arisen since the end of the financial year which has significantly affected or may significantly affect:

- (i) The operations of the Credit Union;
- (ii) The results of those operations; or
- (iii) The state of affairs of the Credit Union,

in the financial years subsequent to this financial year.

This report is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the Directors by:

Noel J.T. Hancock
Chair

Anthony J. Dann

**Auditor's Independence Declaration
To the Directors of Transport Mutual Credit Union Limited**

In accordance with the requirements of section 307C of the Corporations Act 2001, as lead auditor for the audit of Transport Mutual Credit Union Limited for the year ended 30 June 2014, I declare that, to the best of my knowledge and belief, there have been:

- a no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- b no contraventions of any applicable code of professional conduct in relation to the audit.

Independent Auditor's Report To the Members of Transport Mutual Credit Union Limited

We have audited the accompanying financial report of Transport Mutual Credit Union Limited (the "Company"), which comprises the statement of financial position as at 30 June 2014, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the company.

Directors' responsibility for the financial report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001. The Directors' responsibility also includes such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. The Directors also state, in the notes to the financial report, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, the financial statements comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require us to comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's

Grant Thornton Audit Pty Ltd ACN 130 913 594
a subsidiary or related entity of Grant Thornton Australia Ltd ABN 41 127 556 389

Grant Thornton refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTL). GTL and the member firms are not a worldwide partnership. GTL and each member firm is a separate legal entity. Services are delivered by the member firms. GTL does not provide services to clients. GTL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Auditor's opinion

In our opinion:

- a the financial report of Transport Mutual Credit Union Limited is in accordance with the Corporations Act 2001, including:
 - i giving a true and fair view of the Company's financial position as at 30 June 2014 and of its performance for the year ended on that date; and
 - ii complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- b the financial report also complies with International Financial Reporting Standards as disclosed in the notes to the financial statements.

DIRECTORS' DECLARATION

The Directors of Transport Mutual Credit Union Limited declare that:-

1. The financial statements, comprising the statement of profit or loss and other comprehensive income, statement of financial position, statement of cash flows, statement of changes in equity, and accompanying notes, are in accordance with the Corporations Act 2001 and:
 - (a) comply with Accounting Standards and the Corporations Regulations 2001; and
 - (b) give a true and fair view of the company's financial position as at 30 June 2014 and of its performance for the year ended on that date.
2. The company has included in the notes to the financial statements an explicit and unreserved statement of compliance with International Financial Reporting Standards.
3. In the Directors' opinion, there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the Directors by:

1. STATEMENT OF ACCOUNTING POLICIES

This financial report is prepared for Transport Mutual Credit Union Limited as a single Credit Union, for the year ended the 30th June 2014. The report was authorised for issue on 24th September 2014 in accordance with a resolution of the Board of Directors. The financial report is presented in Australian dollars. The financial report is a general purpose financial report which has been prepared in accordance with Australian equivalents to International Financial Reporting Standards (AIFRS), other authoritative pronouncements of the Australian Accounting Standards Board Urgent Issues Group Interpretations and the Corporations Act 2001. Compliance with Australian equivalents to International Financial Reporting Standards (AIFRS) ensures the financial statements and notes comply with the International Financial Reporting Standards (IFRS). Transport Mutual Credit Union Limited is a for-profit entity for the purpose of preparing the financial statements.

a. Basis of Measurement and Classification

The financial statements have been prepared on an accruals basis, and are based on historical costs, which do not take into account changing money values or current values of non-current assets with the exception of real property and Available for Sale Investments which are stated at fair value. The accounting policies are consistent with the prior year unless otherwise stated.

Financial assets and financial liabilities are recognised when the Credit Union becomes a party to the contractual provisions of the financial instrument, and are measured initially at fair value adjusted by transaction costs, except for those carried at fair value through profit or loss, which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities are described below.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expired.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments are classified into the following categories upon initial recognition:

- loans and receivables
- financial assets at fair value through profit or loss (FVTPL)
- held-to-maturity (HTM) investments
- available-for-sale (AFS) financial assets.

The category determines subsequent measurement and whether any resulting income and expense is recognised in profit or loss or in other comprehensive income. All financial assets except for those at FVTPL are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

All income and expenses relating to financial assets that are recognised in profit or loss, are presented within finance costs, finance income or other financial items, except for impairment of loans and receivables which is presented within other expenses.

TRANSPORT MUTUAL CREDIT UNION LIMITED

A.B.N. 78 087 650 600

2014 Annual Financial Report

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest method, less provision for impairment. The Credit Union's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default. Receivables that are not considered to be individually impaired are reviewed for impairment determined by reference to the industry and region of a counterparty and other shared credit risk characteristics. The impairment loss estimate is then based on recent historical counterparty default rates for each identified class of borrower.

Financial assets at FVTPL

Financial assets at FVTPL include financial assets that are either classified as held for trading or that meet certain conditions and are designated at FVTPL upon initial recognition. Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Available For Sale (AFS) financial assets

AFS financial assets are non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets. The Credit Union's AFS financial assets include the equity investment in Cuscal Limited.

The equity investment in Cuscal Limited is measured at cost less any impairment charges, as their fair value cannot currently be estimated reliably. Impairment charges are recognised in profit or loss.

All other AFS financial assets are measured at fair value. Gains and losses on these assets are recognised in other comprehensive income and reported within the AFS reserve within equity, except for impairment losses, which are recognised in profit or loss. When the asset is disposed of or is determined to be impaired, the cumulative gain or loss recognised in other comprehensive income is reclassified from the equity reserve to profit or loss, and presented as reclassification adjustments within other comprehensive income. Interest calculated using the effective interest method and dividends are recognised in profit or loss within 'finance income'.

Reversals of impairment losses are recognised in other comprehensive income, except for financial assets that are debt securities which are recognised in profit or loss only if the reversal can be objectively related to an event occurring after the impairment loss was recognised.

Classification and subsequent measurement of financial liabilities

The Credit Union's financial liabilities include borrowings, trade and other payables.

Financial liabilities are measured subsequently at amortised cost using the effective interest method, except for financial liabilities held for trading or designated at FVTPL, that are carried subsequently at fair value with gains or losses recognised in profit or loss.

b. Loans to Members

Basis of recognition

All loans are initially recognised at fair value, net of loan origination fees and inclusive of transaction costs incurred. Loans are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the income statement over the period of the loans using the effective interest method.

Loans to Members are reported at their recoverable amount representing the aggregate amount of principal and unpaid interest owing to the Credit Union at balance date, less any allowance or provision against impairment for debts considered doubtful. A loan is classified as impaired where recovery of the debt is considered unlikely as determined by the Board of Directors.

Interest earned

Term loans - Interest is calculated on the basis of the daily balance outstanding and is charged in arrears to a Member's account on the last day of each month.

Overdraft - Interest is calculated initially on the basis of the daily balance outstanding and is charged in arrears to a Member's account on the last day of each month.

Non accrual loan interest - While still legally recoverable, interest is not brought to account as income where the Credit Union is informed that the Member is deceased, or, where a loan is impaired.

Loan origination fees and discounts

Loan establishment fees and discounts are initially deferred as part of the loan balance, and are brought to account as income over the expected life of the loan as interest revenue.

Transaction costs

Transaction costs are expenses which are direct and incremental to the establishment of the loan. These costs are initially deferred as part of the loan balance, and are brought to account as a reduction to income over the expected life of the loan, and included as part of interest revenue.

Fees on loans

The fees charged on loans after origination of the loan are recognised as income when the service is provided or costs are incurred.

c. Loan Impairment

Specific and collective provision for impairment

A provision for losses on impaired loans is recognised when there is objective evidence that the impairment of a loan has occurred. Estimated impairment losses are calculated on either a portfolio basis for loans of similar characteristics, or on an individual basis. The amount provided is determined by Management and the Board to recognise the probability of loan amounts not being collected in accordance with terms of the loan agreement. The critical assumptions used in the calculation are as set out in Note 8. Note 19 includes detail of the credit risk management approach for loans.

The APRA Prudential Standards require a minimum provision to be maintained, based on specific percentages on the loan balance which are contingent upon the length of time the repayments are in arrears. This approach is used to assess the collective provisions for impairment.

An assessment is made at each balance sheet date to determine whether there is objective evidence that a specific financial asset or a group of financial assets is impaired. Evidence of impairment may include indications that the borrower has defaulted, is experiencing significant financial difficulty, or where the debt has been restructured to reduce the burden to the borrower.

Reserve for credit losses

In addition to the above specific provision, the Board has recognised the need to make an allocation from retained earnings to ensure there is adequate protection for Members against the prospect that some Members will experience loan repayment difficulties in the future. The reserve is based on estimation of potential risk in the loan portfolio based upon:

- the level of security taken as collateral
- the concentration of loans taken by employment type.

Renegotiated loans

Loans which are subject to renegotiated terms which would have otherwise been impaired do not have the repayment arrears diminished and interest continues to accrue to income. Each renegotiated loan is retained at the full arrears position until the normal repayments are reinstated and brought up to date and maintained for a period of 6 months.

d. Bad debts written off (direct reduction in loan balance)

Bad debts are written off from time to time as determined by Management and the Board of Directors when it is reasonable to expect that the recovery of the debt is unlikely. Bad debts are written off against the provisions for impairment, if a provision for impairment had previously been recognised. If no provision had been recognised, the write offs are recognised as expenses in the income statement.

e. Property, plant and equipment

Property, plant and equipment, with the exception of freehold land, are depreciated on a straight line basis so as to write off the net cost of each asset over its expected useful life to the Credit Union. The useful lives are adjusted if appropriate at each reporting date. Estimated useful lives as at the balance date are as follows:

- Leasehold improvements – over the life of each asset
- Plant and equipment – 3 to 7 years
- Assets less than \$300 are not capitalised.

f. Receivables from other financial institutions

Term deposits with other financial institutions are unsecured and have a carrying amount equal to their principal amount. Interest is paid on the daily balance at maturity. All deposits are in Australian currency.

The accrual for interest receivable is calculated on a proportional basis of the expired period of the term of the investment. Interest receivable is included in the amount of receivables in the statement of financial position.

g. Equity investments and other securities

Investments in shares are classified as available for sale financial assets where they do not qualify for classification as loans and receivables, or investments held for trading.

Investments in shares which do not have a ready market and are not capable of being reliably valued are recorded at the lower of cost or recoverable amount.

Realised net gains and losses on available for sale financial assets taken to the profit and loss account comprises only gains and losses on disposal.

All investments are in Australian currency.

h. Member Deposits

Basis for measurement

Member savings and term investments are quoted at the aggregate amount of money owing to depositors.

Interest payable

Interest on savings is calculated on the daily balance and posted to the accounts periodically, or on maturity of the term deposit. Interest on savings is brought to account on an accrual basis in accordance with the interest rate terms and conditions of each savings and term deposit account as varied from time to time. The amount of the accrual is shown as part of amounts payable.

i. Borrowings

All borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the income statement over the period of the loans and borrowings using the effective interest method.

j. Provision for Employee Benefits

Provision is made for the Credit Union's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits expected to be settled within one year, have been measured at their nominal amount.

Other employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits discounted using national government bond rates.

Provision for long service leave is on a pro-rata basis from commencement of employment with the Credit Union, based on the present value of its estimated future cash flows.

Annual leave is accrued in respect of all employees on pro-rata entitlement for part years of service and leave entitlement due but not taken at balance date. Annual leave is reflected as part of the sundry creditors and accruals.

Contributions are made by the Credit Union to an employee's preferred choice-compliant superannuation fund and are charged to the income statement as incurred.

k. Leasehold on Premises

Leases, where the lessor retains substantially all the risks and rewards of ownership of the net asset, are classified as operating leases. Payments made under operating leases (net of incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

l. Income Tax

The income tax expense shown in the income statement is based on the profit before income tax adjusted for any non tax deductible, or non assessable items between accounting profit and taxable income. Deferred tax assets and liabilities are recognised using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets or liabilities and their carrying amounts in the financial statements.

Deferred tax assets and liabilities are recognised for all temporary differences between carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases at the rate of income tax applicable to the period in which the benefit will be received or the liability will become payable. These differences are presently assessed at 30%.

Deferred tax assets are only brought to account if it is probable that future taxable amounts will be available to utilise those temporary differences. The recognition of these benefits is based on the assumption that no adverse change will occur in income tax legislation; and the anticipation that the Credit Union will derive sufficient future assessable income and comply with the conditions of deductibility imposed by the law to permit an income tax benefit to be obtained.

m. Intangible Assets

Items of computer software which are not integral to the computer hardware owned by the Credit Union are classified as intangible assets.

Computer software is amortised over the expected useful life of the software. These lives range from 2 to 5 years.

n. Goods and Services Tax

As a financial institution the Credit Union is input taxed on all income except for income from commissions and some fees. An input taxed supply is not subject to goods and services tax (GST) collection, and similarly the GST paid on related or apportioned purchases cannot be recovered. As some income is charged GST, the GST on purchases are generally recovered on a proportionate basis. In addition certain prescribed purchases are subject to reduced input tax credits (RITC), of which 75% of the GST paid is recoverable.

Revenue, expenses and assets are recognised net of the amount of GST. To the extent that the full amount of the GST incurred is not recoverable from the Australian Tax Office (ATO), the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or current liability in the balance sheet. Cash flows are included in the cash flow statement on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the Australian Taxation Office are classified as operating cash flows.

o. Cash and cash equivalents

Cash comprises cash on hand and at call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

p. Impairment of Assets

At each reporting date the Credit Union assesses whether there is any indication that individual assets are impaired. Where impairment indicators exist, the recoverable amount is determined and impairment losses are recognised in the income statement where the asset's carrying value exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where it is not possible to estimate the recoverable amount for an individual asset, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

q. Accounting Estimates and Judgements

Management have made critical accounting estimates when applying the Credit Union's accounting policies with respect to the impairment provisions for loans - refer Note 8.

r. New standards applicable for the current year

The Credit Union applies the current revised accounting standards applicable for financial years commencing from 1st July 2013. The Credit Union has adopted the following amended standards in the presentation of the financial report:

- AASB 13
- AASB 119

8. PROVISION ON IMPAIRED LOANS	2014	2013
	\$	\$
a. Total provision comprises		
Collective provisions	8,571	11,828
Individual specific provisions	13,756	-
Total Provision	<u>22,327</u>	<u>11,828</u>
b. Movement in the provision for impairment		
Balance at the beginning of year	11,828	10,342
Add (deduct):		
Transfers from (to) Profit or Loss statement	30,081	1,569
Bad debts written off provision	(19,582)	(83)
Balance at end of year	<u>22,327</u>	<u>11,828</u>

Details of credit risk management are set out in Note 19.

c. Impaired loans written off		
Amounts written off against the provision for impaired loans	19,582	83
Amounts written off directly to expense	5,184	454
Total bad debts	<u>24,766</u>	<u>537</u>
Bad debts recovered in the period	4,152	10,961
Total bad debts recovered	<u>4,152</u>	<u>10,961</u>

d. Analysis of loans that are impaired or potentially impaired by class

In the Note below:

- Carrying value is the amount on the balance sheet
- Impaired loans value is the 'on balance sheet' loan balances which are past due by 90 days or more
- Provision for impairment is the amount of the impairment provision allocated to the class of impaired loans

	2014			2013		
	Carrying Value	Value of Impaired Loans	Provision for Impairment	Carrying Value	Value of Impaired Loans	Provision for Impairment
	\$	\$	\$	\$	\$	\$
Loans to Members:						
- Mortgages	38,648,188	-	-	39,477,960	-	-
- Personal	7,067,686	34,997	22,244	6,995,518	22,878	11,666
- Overdrafts	134,747	116	83	151,742	406	162
Total to natural persons	45,850,621	35,113	22,327	46,625,220	23,284	11,828
Corporate borrowers	-	-	-	-	-	-
Total	45,850,621	35,113	22,327	46,625,220	23,284	11,828

It is not practicable to determine the fair value of all collateral as at the balance date due to the variety of assets and condition.

90 days and less than 180 days	21,221	8,488	10,306	4,123
180 days and less than 270 days	-	-	12,572	7,543
270 days and less than 365 days	-	-	-	-
365 days and over in arrears	-	-	-	-
Over limit facilities over 14 days	116	83	406	162
Total	45,850,621	22,327	46,625,220	11,828

The impaired loans are generally not secured against residential property. Some impaired loans are secured by bill of sale over motor vehicles or other assets of varying value. It is not practicable to determine the fair value of all collateral as at the balance date due to the variety of assets and condition.

f. Loans with repayments past due but not regarded as impaired

Loans with repayments past due but not impaired are in arrears as follows:

	1- 3 Months	3-6 Months	6-12 Months	> 1 Year	Total
2014					
Mortgage secured	-	-	-	-	-
Personal loans	43,476	-	-	-	43,476

2014 Annual Financial Report

g. Key assumptions in determining the provision for impairment

In the course of the preparation of the annual report the Credit Union has determined the likely impairment loss on loans which have not maintained the loan repayments in accordance with the loan contract, or where there is other evidence of potential impairment such as industrial restructuring, job losses or economic circumstances. In identifying the impairment likely from these events the Credit Union is required to estimate the potential impairment using the length of time the loan is in arrears and the historical losses arising in past years. Given the relatively small number of impaired loans, the circumstances may vary for each loan over time resulting in higher or lower impairment losses. An estimate is based on the period of impairment.

Period of impairment	% of balance
Less than 90 days	0
90 days and less than 182 days	40
182 days and less than 273 days	60
273 days and less than 365 days	80
Over 365 days	100

	<u>166,277</u>	<u>166,277</u>

Cuscal Limited

The shareholding in Cuscal is measured at cost as its fair value could not be measured reliably. The shares are able to be traded. This company supplies wholesale and aggregated transactional services to mutual financial institutions and other banking organisations – refer to Note 28.

The financial reports of Cuscal record net tangible asset backing of these shares exceeding their cost value. Based on the net assets of Cuscal, any fair value determination on these shares is likely to be greater than their cost value, but due to the absence of a ready market, a market value is not able to be determined readily.

The Credit Union is not intending to dispose of these shares.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Introduction

The Board has endorsed a policy of compliance and risk management to suit the risk profile of the Credit Union. The Credit Union's risk management focuses on the major areas of market risk, credit risk and operational risk. Authority flows from the Board of Directors to the Audit and Risk Committee which is integral to the management of risk. The following diagram gives an overview of the structure:

The main elements of risk governance are as follows:

Board: This is the primary governing body. It approves the level of risk to which the Credit Union is exposed and the framework for reporting and mitigating those risks. The Board carries out monitoring through monthly review of operational reports, to ensure risk levels are within the parameters outlined by the Board. It also ensures that contingency plans are in place to achieve business continuity in the event of serious disruptions to business operations.

Audit and Risk Committee: Its key role in risk management is the assessment of the controls that are in place to mitigate risks. The Audit and Risk Committee considers and confirms that the significant risks and controls are to be assessed within the internal audit plan. The Audit and Risk Committee receives the internal audit reports on assessment and compliance with the controls, and provides feedback to the Board for its consideration.

Senior Management: This group of senior Management and staff meets weekly and has responsibility for managing and reporting the Credit Union's lending and funding position. Information obtained at these meetings is used to ensure sufficient liquidity is available to satisfy the needs of future loan fundings.

Internal Audit: Internal audit has responsibility for implementing the controls testing and assessment as required by the Audit and Risk Committee.

Key risk management policies encompassed in the overall risk management framework include :

- Interest rate risk
- Liquidity management
- Credit risk management
- Operations risk management including data risk management.

The Credit Union has undertaken the following strategies to minimise the risks arising from financial instruments:

a. MARKET RISK

The objective of the Credit Union's market risk management is to manage and control market risk exposures in order to optimise risk and return.

Market risk is the risk that changes in interest rates, foreign exchange rates or other prices and volatilities will have an adverse effect on the Credit Union's financial condition or results. The Credit Union is not exposed to currency risk, and other significant price risk. The Credit Union does not trade in the financial instruments it holds on its books. The Credit Union is exposed only to interest rate risk arising from changes in market interest rates.

Day to day management of market risk is the responsibility of senior Management, with monthly and quarterly reporting going to the Board via the Audit and Risk Committee.

(i) INTEREST RATE RISK

Interest rate risk is the risk of variability of the fair value or future cash flows arising from financial instruments due to the changes in interest rates.

Most banks are exposed to interest rate risk within their treasury operations. The Credit Union does not have a treasury operation and does not trade in financial instruments.

TRANSPORT MUTUAL CREDIT UNION LIMITED

A.B.N. 78 087 650 600

2014 Annual Financial Report

Interest rate risk in the banking book

The Credit Union is exposed to interest rate risk in its banking book due to mismatches between the repricing dates of assets and liabilities.

The interest rate risk on the banking book is measured daily, reported to senior Management weekly, and to the Board via the Audit and Risk Committee monthly.

In the banking book the most common risk the Credit Union faces arises from fixed rate assets and liabilities. This exposes the Credit Union to the risk of sensitivity should interest rates change.

The level of interest rate matching on the banking book is set out in Note 22. The table sets out the period that each asset and liability will reprice as at the balance date.

Method of managing risk

The Credit Union manages its interest rate risk through the use of interest rate sensitivity analysis, the detail and assumptions used are set out below.

Interest rate sensitivity

The Credit Union's exposure to market risk is measured and monitored using interest rate sensitivity models.

The policy of the Credit Union to manage the risk is to maintain a balanced 'on book' strategy by ensuring the net interest rate gaps between assets and liabilities are not excessive. The measured Gap in each 3 month range to be maintained is 1% - 2% of the net assets. The Gap is measured monthly to identify any large exposures to the interest rate movements, and to rectify the excess through targeted fixed rate interest products available through investment assets, and term deposit liabilities to rectify the imbalance to within acceptable levels.

Based on the calculations as at 30th June 2014 the increase in net profit for a 1% increase in interest rates would be \$28,446 (2013- \$68,922).

The method used in determining the sensitivity is to evaluate the profit based on the timing of the interest repricing on the banking book of the Credit Union for the next 12 months. In doing the calculation the assumptions applied were that:

- the interest rate change would be applied equally to the loan products and term deposits;
- the rate change would be as at the beginning of the 12 month period and no other rate changes would be effective during the period;
- the term deposits would all reprice to the new interest rate at the term maturity, or be replaced by deposits with similar terms and rates applicable;
- savings deposits would reprice in less than 30 days ;
- fixed rate loans would all reprice to the new interest rate at the contracted date;
- variable loans would reprice between 31 and 90 days;
- all loans would be repaid in accordance with the current average repayment rate (or contractual repayment terms);
- the value and mix of call savings to term deposits will be unchanged; and
- the value and mix of personal loans to mortgage loans will be unchanged.

There has been no change to the way the Credit Union manages and measures market risk in the reporting period.

b. LIQUIDITY RISK

Liquidity risk is the risk that the Credit Union may encounter difficulties raising funds to meet commitments associated with financial instruments, e.g. borrowing repayments or Member withdrawal demands. It is the policy of the Board of Directors that Management maintains adequate cash reserves and committed credit facilities so as to meet the Member withdrawal demands.

The Credit Union manages liquidity risk by:

- Continuously monitoring actual daily cash flows and longer term forecasted cash flows;
- Monitoring the maturity profiles of financial assets and liabilities;
- Maintaining adequate reserves, liquidity support facilities and reserve borrowing facilities; and
- Monitoring the prudential liquidity ratio daily.

The Credit Union has a long-standing arrangement with the industry liquidity support organisation, Credit Union Financial Support Services (CUFSS) which can access industry funds to provide support to the Credit Union should that be necessary at short notice.

The Credit Union is required to maintain at least 9% of total liabilities as liquid assets capable of being converted to cash within 24 hours under the APRA Prudential Standards. The Credit Union policy is to maintain a minimum 13% of total liabilities as liquid assets to maintain adequate funds for meeting Member withdrawal requests. The ratio is checked daily. Should the liquidity ratio fall below 16%, Management and Board are to address the matter and ensure that the liquid funds are obtained from new deposits, or borrowing facilities available.

The maturity profile of the financial liabilities, based on the contractual repayment terms are set out in the specific Note 21. The ratio of liquid funds over the past year is set out below:

	2014	2013
Liquid funds to total adjusted liabilities		
As at 30 June	23.15%	16.69%
Average for the year	21.82%	21.94%
Minimum during the year	15.95%	16.06%
Liquid funds to total Member deposits		
As at 30 June	26.61%	23.93%

TRANSPORT MUTUAL CREDIT UNION LIMITED

A.B.N. 78 087 650 600

2014 Annual Financial Report

c. CREDIT RISK

Credit risk is the risk that Members, financial institutions and other counterparties will be unable to meet their obligations to the Credit Union which may result in financial losses. Credit risk arises principally from the Credit Union's loan book and investment assets.

(i) CREDIT RISK – LOANS

The analysis of the Credit Union's loans by class, is as follows:

	2014			2013		
	Carrying value	Commitments	Max exposure	Carrying value	Commitments	Max exposure
	\$	\$	\$	\$	\$	\$
Mortgage	38,648,188	7,072,411	45,720,599	39,477,960	7,652,986	47,130,946
Personal	7,067,686	483,207	7,550,893	6,995,518	602,378	7,597,896
Overdrafts	134,747	565,097	699,844	151,742	165,614	317,356
Total to natural persons	45,850,621	8,120,715	53,971,336	46,625,220	8,420,978	55,046,198
Corporate borrowers				-	-	-
Total	45,850,621	8,120,715	53,971,336	46,625,220	8,420,978	55,046,198

Carrying value is equal to gross value (before impairment) on balance sheet. Maximum exposure is equal to the value on the balance sheet plus undrawn facilities (including loans approved not yet advanced; redraw facilities; line of credit facilities and overdraft facilities). The details are shown in Note 24.

All loans and facilities are within Australia. The geographic distribution is not analysed into significant areas other than by state within Australia as the exposure classes are not considered material. Concentrations are described in Note 7c.

The method of managing credit risk is by way of strict adherence to the credit assessment process before the loan is approved, and by close monitoring of defaults in the repayment of loans thereafter on a weekly basis. The credit risk policy has been endorsed by the Board to ensure that loans are only made to Members that are capable of meeting loan repayments.

The Credit Union has established policies over the:

- Assessment and approval of loans and facilities, covering acceptable risk, assessment procedures and appropriate security and insurance;
- Limits of acceptable exposures to individual borrowers, personal loans and commercial lending;
- Reassessing and review of the credit exposures on loans and facilities;
- Establishing appropriate provisions to recognise the impairment of loans and facilities;
- Debt recovery procedures;
- Review of compliance with the above policies.

A regular review of compliance is conducted as part of the internal audit scope.

Past due and impaired

A financial asset is past due when the counterparty has failed to make a payment when contractually due. As an example, a Member enters into a lending agreement with the Credit Union that requires interest and a portion of the principle to be repaid every month. On the first day of the next month, if the agreed repayment amount has not been paid, the loan is considered 'past due'. Past due does not mean that a counterparty will never pay, but it can trigger various actions such as Member contact, loan renegotiation, enforcement of rights, or legal proceedings. Once the loan exceeds 90 days past due, the loan is regarded as impaired, unless other factors indicate the impairment should be recognised sooner.

Weekly reports monitor loan repayments to detect delays in repayments and recovery action is undertaken after 7 days. For loans where repayments are doubtful, external consultants can be engaged to conduct recovery action. Exposures to losses arise predominantly in personal loans and facilities not secured by registered mortgages over real estate.

If such evidence exists, the estimated recoverable amount of that asset is determined and any impairment loss, based on the net present value of future anticipated cash flows, is recognised in the income statement. In estimating these cash flows, Management makes judgements about a counterparty's financial situation and the net realisable value of any underlying collateral.

Balance sheet provisions are maintained at a level that Management deems sufficient to absorb probable incurred losses in the Credit Union's loan portfolio from individually identified loans.

A provision for incurred losses is established on all past due loans after a specified period of repayment default where it is probable that some of the capital will not be repaid or recovered. Specific loans and portfolios of assets are provided against depending on a number of factors including changes in a counterparty's industry, regional economic factors, as well as identified structural weaknesses or deterioration in cash flows.

The provisions for impaired and past due exposures relate to the loans to Members.

Details are set out in Note 8.

Bad debts

Amounts are written off when collection of the loan or advance is considered to be unlikely. All write offs are on a case by case basis, taking account of the exposure at the date of the write off.

On secured loans, the write off takes place on ultimate realisation of collateral value, or from claims on any lenders mortgage insurance.

A reconciliation in the movement of both past due and impaired exposure provisions is provided in Note 8.

Collateral securing loans

A majority of the loan book is secured by residential property in Australia, primarily in New South Wales. Therefore, the Credit Union is exposed to risks in the increase of the Loan to Valuation Ratio (LVR) should the property market be subject to a significant decline.

The risk of losses from the loans issued by the Credit Union is primarily reduced by the nature and quality of the security taken.

The Board policy is to maintain a range of 70% - 85% of the loan portfolio in well secured residential mortgages which carry an 80% LVR or less. Note 7.b describes the nature and extent of the security held against the loans held as at the balance date.

Concentration risk – individuals

Concentration risk is a measurement of the Credit Union's exposure to an individual counterparty (or group of related parties). If prudential limits are exceeded as a proportion of the Credit Union's regulatory capital (10 per cent) a large exposure is considered to exist. No capital is required to be held against these but APRA must be informed. APRA may impose additional capital requirements if it considers the aggregate exposure to all loans over the 10% capital benchmark, to be higher than acceptable.

The aggregate value of large exposure loans are set out in Note 7. Of the aggregate value, the Credit Union holds no significant concentrations of exposures to individual Members.

Concentration risk – industry

The Credit Union has a concentration in retail lending to Members, who are employed in the transport sector in NSW. This concentration is considered acceptable on the basis that the Credit Union was formed to service these Members, and the employment concentration is not exclusive. Should Members leave the industry the loans continue and other employment opportunities are available to the Members to facilitate the repayment of the loans. The details of the geographical and industry concentrations are set out in Note 7c.

(ii) CREDIT RISK – LIQUID INVESTMENTS

Credit risk is the risk that the other party to a financial instrument will fail to discharge their obligation resulting in the Credit Union incurring a financial loss. This usually occurs when debtors fail to settle their obligations owing to the Credit Union.

There is a concentration of credit risk with respect to investment receivables with the placement of investments in Cuscal. The credit policy is that investments are only made to institutions that are credit worthy. The risk of losses from the liquid investments undertaken is reduced by the nature and quality of the independent rating of the investment body. All investments are reported to the Board on a monthly basis.

Under the liquidity support scheme at least 3.2% of the total assets must be invested in Cuscal, to allow the scheme to have adequate resources to meet its obligations if needed.

External Credit Assessment for Institution Investments

The Credit Union uses the ratings of reputable ratings agencies to assess the credit quality of all investment exposure, where applicable, using the credit quality assessment scale in APRA prudential guidance AGN 112. The credit quality assessment scale within this standard has been complied with.

The exposure values associated with each investment are as follows:

Investments	2014	2013
	Carrying value	Carrying value
Cuscal – rated AA-	5,964,216	3,486,381
Banks – rated A or above	4,000,000	4,000,000
Unrated	-	2,000,000
Total	9,964,216	9,486,381

d. FRAUD

Fraud can arise from Member card PINS and internet passwords being compromised where not protected adequately by the Member. It can also arise from other systems failures. The Credit Union has systems in place which are considered to be robust enough to prevent any material fraud. However, in common with all retail banks, fraud is potentially a real cost. Fraud losses have arisen from card skimming, internet password theft and false loan applications.

e. IT SYSTEMS

The worst case scenario would be the failure of the Credit Union's core banking and IT network suppliers, to meet customer obligations and service requirements. The Credit Union has outsourced the IT systems management to an Independent Data Processing Centre (IDPC). This organisation has the experience in-house to manage any short-term problems and has a contingency plan to manage any related power or systems failures. Other network suppliers are engaged on behalf of the Credit Union by the industry body CUSCAL to service the settlements with other financial institutions for direct entry, ATM & Visa cards, and BPAY etc. An appropriate disaster recovery plan is in place to cover medium to long-term problems, which is considered to mitigate the risk to an extent such that there is no need for any further capital to be allocated.

TRANSPORT MUTUAL CREDIT UNION LIMITED

A.B.N. 78 087 650 600

2014 Annual Financial Report

f. CAPITAL MANAGEMENT

The capital levels are prescribed by Australian Prudential Regulation Authority (APRA). Under the APRA prudential standards capital is determined in three components

- Credit risk
- Market risk (trading book)
- Operational risk.

The market risk capital component is not required as the Credit Union is not engaged in a trading book for financial instruments.

Capital resources**Tier 1 Capital**

The vast majority of Tier 1 capital comprises

- Capital Reserve (Member shares)
- Retained profits
- Realised reserves.

Tier 2 Capital

Tier 2 capital comprises:

- A General Reserve for Credit Losses

Capital in the Credit Union is made up as follows:

	2014	2013
	\$	\$
Tier 1		
Capital reserve	32,660	31,450
Retained earnings	8,349,750	8,161,045
	<u>8,382,410</u>	<u>8,192,495</u>
Less prescribed deductions	272,018	282,161
Net tier 1 capital	<u>8,110,392</u>	<u>7,910,334</u>
 Tier 2		
Reserve for credit losses	<u>385,036</u>	<u>342,076</u>
Less prescribed deductions	-	-
Net tier 2 capital	<u>385,036</u>	<u>342,076</u>
 Total Capital	<u><u>8,495,428</u></u>	<u><u>8,252,410</u></u>

The APRA prudential standards state that ADIs must hold a minimum capital ratio, as a percentage of risk weighted assets. The statutory minimum as determined by APRA is 8%. Although this is a minimum, the regulator expects ADIs to maintain a buffer over and beyond the minimum at all times.

The risk weights attached to each asset are based on the weights prescribed by APRA in its Guidance AGN 112-1. The general rules apply the risk weights according to the level of underlying security.

Total Credit Weighted Risk			<u>25,737,651</u>
Operational Risk			<u>3,518,779</u>
Total Risk Weighted Value			<u>29,256,430</u>

The capital ratio as at the end of the financial year over the past 5 years is as follows:

2014	2013	2012	2011	2010
28.82%	27.69%	28.62%	27.34%	29.83%

The level of capital ratio can be affected by growth in assets relative to growth in reserves and by changes in the mix of assets.

To manage the Credit Union's capital the Credit Union reviews the ratio monthly and monitors major movements in the asset and income levels. Policies have been implemented to require reporting to the Board and the regulator if the capital ratio falls below 18%. Further, an annual capital budget projection of the capital levels is undertaken to address how strategic decisions or trends may impact on the capital level.

Pillar 2 Capital on Operational Risk

The Credit Union uses APRA's standardised approach, which is considered to be most suitable for its business given the small number of distinct transaction streams. The Operational Risk Capital Requirement is calculated by mapping the Credit Union's three year average net interest income and net non-interest income to the Credit Union's various business lines.

Based on the standardised model, the Credit Union's operational risk requirement is as follows:

Operational risk capital requirement \$281,502 (30th June 2013 \$274,941).

2014 Annual Financial Report

g. INTERNAL CAPITAL ADEQUACY MANAGEMENT

The Credit Union manages its internal capital levels for both current and future activities through the Audit and Risk Committee. The outputs of the Committee are reviewed by the Board in its capacity as the primary governing body. The capital required for any change in the Credit Union's forecasts for asset growth, or unforeseen circumstances, are assessed by the Board.

In relation to the operational risks, the major measurements for additional capital are recognised by the monitoring and stress testing for:

1. Fraud risk - The capital held to cover fraud risks is to be equal to the higher of the Credit Union's largest loss in the last ten years. This amounts to \$4,017 (2013: \$4,017).
2. Asset impairment – the impact of economic and employment factors on the loan losses, and/or recovery of investments.
3. Property value decline – the impact on property values declining and the related exposure to higher capital required to recognise potential losses or risk weight on assets. The Credit Union's approach is to take a 5 per cent capital charge in instances where the LVR exceeds 80 per cent only in instances where the exposure is on an impaired loan in excess of 90 days. This is considered appropriate as it is only in these relatively poor quality exposures where there is a significant risk that the Credit Union may need to draw on the security held.
4. Interest rate risk – measures the impact on capital from changes in interest rates impacting the net interest margin and net surplus.
5. Events impacting the additional costs of retention of liquid funds and exercising available liquidity drawdown facilities.

The optional additional capital charge recognised by the Board, equates to the excess over the 8% statutory minimum ratio, to the Board's minimum policy ratio of 18%, and for 2014 was \$2,925,643 (2013: \$2,980,286).

20. CATEGORIES OF FINANCIAL INSTRUMENTS

The following information classifies the financial instruments into measurement classes

	Note	2014 \$	2013 \$
Financial assets - carried at amortised cost			
Cash	4	2,159,642	1,315,486
Advances to other from Financial Institutions	5	9,964,216	9,486,381
Receivables	6	125,612	118,943
Loans to Members	7a	45,818,812	46,600,674
Total loans and receivables		58,068,282	57,521,584
Available for sale investments - carried at cost	9	166,277	166,277
TOTAL FINANCIAL ASSETS		58,234,559	57,687,861
Financial liabilities			
Deposits from other Financial Institutions		3,500,000	3,500,000
Deposits from Members	13	45,561,411	45,134,837
Creditors	14	474,422	616,006

2014 Annual Financial Report

Financial Assets at Fair Value

Fair value measurement at end of the reporting period using:

	\$	\$	\$	\$
	Balance	Level 1	Level 2	Level 3
Equity investments	166,277	-	-	166,277
Total	166,277	-	-	166,277

The fair value hierarchy has the following levels:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3). The standard permits the measurement at cost in absence of an ability to reliably measure the assets at fair value.

21 (a). MATURITY PROFILE OF FINANCIAL ASSETS AND LIABILITIES

Monetary assets and liabilities have differing maturity profiles depending on the contractual term, and in the case of loans the repayment amount and frequency. The table below shows the period in which different monetary assets and liabilities held will mature and be eligible for renegotiation or withdrawal. In the case of loans, the table shows the period over which the principal outstanding will be repaid based on the remaining period to the repayment date assuming contractual repayments are maintained, and is subject to change in the event that current repayment conditions are varied. Financial liabilities are at the undiscounted values (including future interest expected to be earned or paid). Accordingly, these values will differ to the balance sheet.

21 (b). MATURITY PROFILE OF FINANCIAL ASSETS AND LIABILITIES

The table below represents the above maturity profile summarised at discounted values. The contractual arrangements best represent the estimated minimum amount of repayment on the loans, liquid investments and on the Member deposits. While the liquid investments and Member deposits are presented in the table below on a contractual basis, as part of our normal banking operations we would expect a large proportion of these balances to roll over. Loan repayments are generally accelerated by Members choosing to repay loans earlier. These advance repayments are at the discretion of the Members and not able to be reliably estimated

22. INTEREST RATE CHANGE PROFILE OF FINANCIAL ASSETS AND LIABILITIES

Financial assets and liabilities have conditions which allow interest rates to be amended either on maturity (term deposits and term investments) or after adequate notice is given (loans and savings). The table below shows the respective value of funds where interest rates are capable of being altered within the prescribed time bands, being the earlier of the contractual repricing date, or maturity date.

2014 Annual Financial Report

23. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

Fair value has been determined on the basis of the present value of *expected future cash flows* under the terms and conditions of each financial asset and financial liability.

Significant assumptions used in the determining the cash flows are that the cash flows will be consistent with the contracted cash flows under the respective contracts.

The information is only relevant to circumstances at balance date and will vary depending on the contractual rates applied to each asset and liability, relative to market rates and conditions at the time. No assets held are regularly traded by the Credit Union, and there is no active market to assess the value of the financial assets and liabilities.

The calculation reflects the interest rate applicable for the remaining term to maturity not the rate applicable to original term.

	Fair Value	2014 Carrying Value	Variance	Fair Value	2013 Carrying Value	Variance
	\$,000	\$,000	\$,000	\$,000	\$,000	\$,000
FINANCIAL ASSETS						
Cash	2,160	2,160	-	1,315	1,315	-
Receivables (1)	126	126	-	119	119	-
Advances to other financial institutions	9,964	9,964	-	9,486	9,486	-
Loans and advances	45,851	45,851	-	46,625	46,625	-
Other Investments	166	166	-	166	166	-
Total Financial Assets	58,267	58,267	-	57,711	57,711	-
FINANCIAL LIABILITIES						
Deposits from other financial institutions	3,500	3,500	-	3,500	3,500	-
Creditors (1)	474	474	-	616	616	-
Deposits from Members:						
- At Call	20,915	20,915	-	18,136	18,136	-
- Term	24,646	24,646	-	27,139	26,999	140
Total Financial Liabilities	49,535	49,535	-	49,391	49,251	140

(1) For these assets and liabilities the carrying value approximates fair value.

Assets where the fair value is lower than the book value have not been written down in the accounts of the Credit Union on the basis that they are to be held to maturity, or in the case of loans, all amounts due are expected to be recovered in full.

The fair value estimates were determined by the following methodologies and assumptions:

Liquid assets and receivables from other financial institutions

The carrying values of cash and liquid assets and receivables due from other financial institutions redeemable within 12 months approximate their fair value as they are short term in nature or are receivable on demand.

TRANSPORT MUTUAL CREDIT UNION LIMITED

A.B.N. 78 087 650 600

2014 Annual Financial Report

Loans and advances

The carrying value of loans and advances is net of unearned income and both general and specific provisions for doubtful debts.

For variable rate loans, (excluding impaired loans) the amount shown in the balance sheet is considered to be a reasonable estimate of fair value. The fair value for fixed rate loans is calculated by utilising discounted cash flow models (i.e. the net present value of the portfolio future principal and interest cash flows), based on the period to maturity of the loans. The discount rates applied were based on the current applicable rate offered for the average remaining term of the portfolio.

The fair value of impaired loans was calculated by discounting expected cash flows using a rate which includes a premium for the uncertainty of the flows.

Deposits from Members

The fair value of call and variable rate deposits, and fixed rate deposits repricing within 12 months, is the amount shown in the balance sheet. Discounted cash flows were used to calculate the fair value of other term deposits, based upon the deposit type and the rate applicable to its related period to maturity.

Short term borrowings

The carrying value of payables due to other financial institutions approximate their fair value as they are short term in nature and reprice frequently.

Loan Facility	100,000	-	100,000
Overdraft Facility	500,000	-	500,000
TOTAL STANDBY BORROWING FACILITIES	600,000	-	600,000

Withdrawal of the loan facility is subject to the availability of funds at Cuscal.

Cuscal holds an equitable mortgage charge over all of the assets of the Credit Union as security against loan and overdraft amounts drawn under the facility arrangements.

26. CONTINGENT LIABILITIES**Liquidity support scheme**

The Credit Union is a member of the Credit Union Financial Support Scheme Limited (CUFSS) a Company limited by guarantee, established to provide financial support to member Credit Unions in the event of a liquidity or capital problem. As a member, the Credit Union is committed to maintaining 3.2% of the total assets as deposits with Cuscal Limited.

Under the terms of the Industry Support Contract (ISC), the maximum call for each participating Credit Union would be 3.2% of the Credit Union's total assets (3% under loans and facilities and 0.2% under the cap on contributions to permanent loans). This amount represents the participating Credit Union's irrevocable commitment under the ISC. At the balance date there were no loans issued under this arrangement.

2014 Annual Financial Report

27. DISCLOSURES ON DIRECTORS AND OTHER KEY MANAGEMENT PERSONNEL**a. Remuneration of key Management persons (KMP)**

Key Management persons are those persons having authority and responsibility for planning, directing and controlling the activities of the Credit Union, directly or indirectly, including any Director (whether executive or otherwise) of that Credit Union. *Control* is the power to govern the financial and operating policies of a Credit Union so as to obtain benefits from its activities.

Key Management persons have been taken to comprise the Directors and the 2 members (2013 - 2 members) of the executive Management responsible for the day to day financial and operational management of the Credit Union.

The aggregate Compensation of key Management persons during the year comprising amounts paid or payable or provided for was as follows:

	Directors	2014 Other KMP	Total	Directors	2013 Other KMP	Total
	\$	\$	\$	\$	\$	\$
(a) short-term employee benefits;	-	278,886	278,886	-	268,965	268,965
(b) post-employment benefits - superannuation contributions	-	25,797	25,797	-	24,207	24,207
(c) other long-term benefits – net increases in long service leave provision	-	9,054	9,054	-	8,395	8,395
(d) termination benefits;	-	-	-	-	-	-
Total	-	313,737	313,737	-	301,567	301,567

In the above table, remuneration shown as short term benefits means salaries, paid annual leave and paid sick leave, value of fringe benefits received, but excludes out of pocket expense reimbursements.

(iii) During the year the aggregate value of loans disbursed to Directors and other key Management persons amounted to:		
Revolving credit facilities	-	-
Personal loans	-	-
Term Loans	<u>401,026</u>	<u>-</u>
	<u>401,026</u>	<u>-</u>
(iv) During the year the aggregate value of revolving credit facility limits granted or increased to Directors and other key Management persons amounted to:	-	-
	<u>-</u>	<u>-</u>
(v) Interest and other revenue earned on Loans and revolving credit facilities to KMP	<u>11,485</u>	<u>15,648</u>

The Credit Union's policy for lending to Directors is that all loans are approved and deposits accepted on the same terms and conditions which are available to Members for each class of loan or deposit. Employees of the Credit Union are entitled to apply for loans at a discounted staff interest rate. As at balance date, such loans totalled \$10,052 (2013 - \$nil). There are no loans which are impaired in relation to the loan balances with Directors or other KMPs.

Other transactions between related parties include deposits from Directors, and other KMP are -

Total value Term and Savings Deposits from KMP	<u>552,915</u>	<u>540,152</u>
Total Interest paid on deposits to KMP	<u>15,668</u>	<u>23,626</u>

The Credit Union's policy for receiving deposits from KMP is that all transactions are approved and deposits accepted on the same terms and conditions which applied to Members for each type of deposit.

c. Transactions with Other Related Parties

Other transactions between related parties include deposits from Director related entities or close family members of Directors, and other KMP. The Credit Union's policy for receiving deposits from related parties is that all transactions are approved and deposits accepted on the same terms and conditions which apply to Members for each type of deposit. There are no benefits paid or payable to the close family members of the key Management persons. There are no service contracts to which key Management persons or their close family members are an interested party.

28. OUTSOURCING ARRANGEMENTS

The Credit Union has outsourcing arrangements with the following suppliers of services.

a. Cuscal Limited

Cuscal Limited is an Approved Deposit Taking Institution registered under the Corporations Act 2001 and the Banking Act. Cuscal Limited;

- (i) provides the license rights to Visa Card in Australia and settlement with banks for ATM, Visa card and cheque transactions, direct entry transactions, as well as the production of Visa and Redicards for use by member Credit Unions;
- (ii) provides treasury and money market facilities to the Credit Union. The Credit Union will ensure minimum CUSCAL and CUFSS investment holdings are maintained.
- (ii) The Credit Union operates the computer network used to link Redicards and Visa cards operated through Reditellers and other approved ATM suppliers to the Credit Union's I.T. systems.
